Richard La Faber's

POWER EMCEE

Professional Master of Ceremonies lead fabulous lives. They are respected for their ability to make any event a success. They are on first name basis with the who's who in social, corporate & political circles. They live life at their own pace and earn a lot of money. In fact professional emcees, as they are called, earn between RM800 to RM50,000 per an event! This depends on what they bring to the show, their experience, talent, knowledge & skills.

So why aren't more people rushing to become emcees? Well most lack the necessary "know how" to make it in the industry. They could seek advice from the pros but they are too busy protecting their rice bowls and are reluctant to share their knowledge & experience. That is however about to change, thanks to Emcee extraordinaire, **Richard La Faber**.

During this one day public workshop Richard will share the techniques, skills & knowledge built up over 30 years in the industry. You will be guided through the entire process of building a career as an emcee from securing your first gig to making the big time.

Richard will also share real life stories, provide examples and introduce you to the intricacies involved in becoming a successful emcee. You will also get to practice your new found skills in a safe environment before unveiling them to the world.
